NUTRITION GUIDE

Updated: 11/03/26

We work to provide accurate, up-to-date nutrition information based on our standard recipes, supplier information, and the USDA database. Because our dishes are hand-prepared to order and ingredients or procedures may change, actual nutritional values may differ from those listed. Please check you're using the latest version of this guide, and keep in mind what's listed may differ from what's served. **Menu item availability varies per location.** 2,000 calories a day is used for general nutrition advice, but calorie needs vary.
