

ALLERGEN GUIDE

Updated: 1/19/26

This guide shares information on which of our menu items may contain most common food allergens based on our standard recipes and information from our suppliers. Because every dish is made to order, cooked and prepared in shared kitchen spaces, we cannot guarantee any item is free of allergens. We work to keep this information current, but recipes and ingredients can change. Please check you're using the latest version of this guide, and keep in mind what's listed may differ from what's served. If you're ordering for someone with food allergies, sensitivities, or dietary restrictions, please ask about ingredients and how the food is prepared before placing your order. Unless noted, menu items include all standard sides and sauces. **Menu item availability varies per location.**

Questions? Contact Us at, www.millersalehouse.com/contact/ or call our Guest Relations team at (407) 547-1244.

We look forward to serving you crave-worthy food and an exceptional experience at Our House!

Allergen Guide Key

Y - Menu item contains this specific allergen, including all standard ingredients such as cooking sauces, marinades, condiments, and fixed accompaniments.
